

## **General Update**

July 7, 2017

### **Harvesting:**

Mike Widell is harvesting pine post wood up Canoe Mountain.

Jerry Plummer is logging up Swift Creek on block SC04 targeting douglas fir for Larry Simpson and set to move into MM01 up the Derek Rd, wood sold to Canfor.

Mickelson Investments is logging block WC36.

Robson Valley Timber is cable logging WC34.

CVH is logging on block WC13 at 22km down West Canoe.

Wood tender results: SPF to Carrier, D. Fir and Hemlock to Interfor and Cedar to Gilbert Smith

### **Roads:**

David Craig is upgrading road and building road into WC36, West Canoe.

Dave Antoniuk is working on West Canoe ML.

Profor Mgmt is set to complete MOF contract for brushing up West Canoe. We will use them to brush 4-5km's to Windfall bridge and 1 km up Windfall ML.

Working on a plan to get Cliff Jackman building road up Kiwa.

Tendering out road brushing from 0-27km West Canoe. Safety issues require it.

### **Mill Site:**

Spectrum sprayed 50ha for mainly Knap weed.

VCF scales were running for Canfor who was hauling into yard. Scales now closed and Canfor is processing and hauling out of yard.

### **Sort Yard:**

Hemlock firewood, one load of L. Simpson fir and small amount of SPF in yard.

### **Planning/Other:**

Greenstar up West Canoe laying out blocks at 27-29km, SPF and Cedar.

Ray Thiessen is working on layout up the south Kiwa. This area is a mix of cable/conv SxBl.

Working with the MOF on fine tuning the TSR submission before we run the model which will help determine the new AAC.

Ecora will start field work mid July for new inventory on K5Q.

VCF staff walking new area for future harvest.

### **Silviculture:**

All planting done for year.

Working on a brushing plan for 2017.
