

VCF LP - General Update

March 01, 2019

Harvesting:

Plummer is harvesting on SC11. Wood sold to Simpsons, Canfor and Carrier. Simpsons wood is hauled over VCF scales then hauled to Simpsons.

Mickelson is harvesting on W24 located up the Westridge. Wood sold to Carrier (SPF), Canfor (pulp) and Interfor (hemlock sawlog).

Robson Valley Timber Corp has been signed into harvest a road right of way into block W06 close to 0km on the Westridge. 1500m road.

Roads:

David Craig has built road into W24.

DWB is working on bridge designs for Windfall Creek, Dave Henry River and Upper Canoe River. New bridges VCF purchased should be in VCF yard soon.

Planning/Other:

Greenstar is laying out block's up the Dave Henry area. We will have to be more cautious with avalanche hazard as the weather warms.

Alana Duncan is set to start working for the VCF LP March 11!

VCF scales are operating Monday, Wednesday and Thursday from 8 to 4pm. Darren Battensby and Ainslie Jackman have been contracted to work in the scales to relieve VCF employees. Brian is taking lead on scales management.

Forest Licence:

Optimum Resources is completing the cruise plans and a combination of Optimum and DWB Consulting will be cruising these blocks. As soon as cruising has been completed, we will compile the planned permit and run it through the appraisal system to determine stumpage and financial viability.

Grants:

Nothing new.

Silviculture:

Toured blocks for planting 2019 with Seth's Integrity Contracting. Negotiating with Seth for prices.

Have started RESULTS submissions. All submissions due March 31.
