

## **VCF LP - General Update**

January 22, 2024

### **Harvesting:**

#### **AAA Logging:**

WC38 – (55 km West Canoe) – Completed  
W30 – (12.5 km Westridge) – Harvesting commenced on January 16.

#### **Plummer Logging:**

WC01A (7 km West Canoe) - Partly logged and hauled due to wet ground conditions.  
W57 (3.5 km Westridge) – All phases active – will be working on this block until the break-up

#### **Shapansky Logging:**

W35 (20.5 km Westridge) – Logging activities started on January 20.

#### **Spaz Logging (Cedar Leading Blocks):**

CV02 (CVH block) at 55 km on the West Canoe – partly logged since last winter; Hauling is supposed to start this week.

CV04 (6.5 km West Canoe) – road upgrade completed.

Spaz is currently logging for FN – this may take him all the way to the break-up.

### **Roads:**

#### **Jackman:**

W35, W36 (km 20.5 Westridge) – Construction of the upper spur in progress

**Bridges:** temporary bridge at 55 km on the West Canoe will be pulled once hauling/logging is completed

#### **Planning/Other:**

Layout activities off Dave Henry FSR and Westridge FSR

**Woodlot:** Done until 2027/28 season.

**Forest Licence:** K2T has been approved for the period of one year.

**Sort Yard:** Clean up loads only

**Silviculture:** Free Growing and Survival surveys

### **Other:**

Still waiting on the date for the dispute resolution with Cedar Valley Holdings.
